srvesxpom04.erbc-group.it - Add Networking

- Select connection type**
- Select target device
- Connection settings
- Ready to complete

Select a connection type to create.

- VMkernel Network Adapter
The VMkernel TCP/IP stack handles traffic for ESXi services such as vSphere vMotion, iSCSI, NFS, FCoE, Fault Tolerance, vSAN and host management.
- Virtual Machine Port Group for a Standard Switch
A port group handles the virtual machine traffic on standard switch.
- Physical Network Adapter
A physical network adapter handles the network traffic to other hosts on the network.
